John Bartlett
Resource Management Coordinator
Deh Cho First Nations
Box 89, Ft. Simpson, NWT
X0E 0N0

Mr. Bartlett

As per our contract I am submitting the following work plan for examining caribou, moose and fish in the Deh Cho territory. As the cost of undertaking this entire project in a single season would be substantial we have developed the work plan in distinct phases. Each phase is designed as a stand alone project that can be funded separately or in conjunction with other phases of the work plan. I hope this approach meets with your approval.

As this is only the first draft we do anticipate making further refinements to the work plan. I look forward to hearing your suggestions and those of other reviewers once you have had an opportunity to read through the document.

If you have any questions please do not hesitate to contact my office.

Sincerely,

Dr. Todd N. Zimmerling, Ph.D., M.Sc., R.P.Bio., P.Biol.
President
