

**APPENDIX F - E-MAIL FEEDBACK**

Dear Glen and al:

The visitation by you (Glen), and your colleagues to our school was very well received by the teachers and the students. The students were very interested and enthusiastic about the presentations, especially with the lessons on teeth and parasites. I would like to encourage the RRC to continue with this approach, as the impact on the students will have a great carry over to the parents as they discuss hunting, conservation and wildlife management around the kitchen table or out on the land. Programs such as this, that I have been involved with in Newfoundland, have had a tremendous impact on families as the parents often listen more to their children than they do to presenters. Please consider doing this again next year.

Thanks again Glen and al.

Regards!

Graham

---

Hi guys,

Just wanted to let you know how much we appreciated your visit. The kids are still talking about it! Thanks for helping our kids get excited about science.

Take care,

Christie
